

Care1st Health Plan Arizona Medicaid Comprehensive Preferred Drug List

The Care1st Health Plan Arizona Comprehensive Preferred Drug List (PDL) includes drugs that have been reviewed and approved by a committee of doctors and pharmacists. This is not a complete list of all covered drugs. If you need a drug that is not in the drug list, call Care1st Health Plan Arizona Member Services and ask if it is covered. If the drug is not covered, your doctor may request prior authorization to cover the drug.

The drug list is updated often and may change. You can view the latest drug list at

<https://www.care1staz.com/az/providers/formulary.asp>

Pharmacy Program

Care1st provides clinically appropriate, medically necessary, and cost-effective medicines. Your plan covers prescription drugs and certain over-the-counter (OTC) drugs when ordered by a doctor. There are drugs that require prior authorization approval (PA) before the pharmacy can give you your medication. Some drugs also have age, dosage, or quantity limits.

Care1st is a mandatory generic plan. Generic drugs have the same active ingredient as their brand name equivalents and should be used as the first line of treatment. The generic drug will generally be provided to you at the pharmacy unless the PDL specifically notes that the brand name drug is preferred. If there is no generic available, there may be more than one brand name drug that can be used in your treatment. The Care1st Comprehensive PDL is reviewed often by our Care1st Health Plan Arizona Pharmacy and Therapeutics (P&T) Committee. This helps promote the clinically appropriate, medically necessary and cost-effective use of medications.

Dispensing Limits

You can get up to a maximum thirty (30) day supply for each new prescription or refill of most medications. You can get up to a ninety (90) day supply if:

- The medication is prescribed for chronic illness
- You will be out of the service area for an extended period of time
- The prescription is limited to the extended time period
- The medication is prescribed for contraception

A total of 85% of the 30 day supply must have elapsed before the prescription can be refilled for most drugs.

Prior Authorization and Other Limits

Some drugs listed on the Care1st Health Plan Arizona Comprehensive PDL may require Prior Authorization (PA). Your doctor or pharmacist will request a PA for you. The information should be submitted by the practitioner or pharmacist on the Medication Prior Authorization Form. This document is located on the Care1st Health Plan Arizona web-site at

<https://www.care1staz.com/az/providers/formulary.asp>.

They may fax the PA form to 602-778-8387 or your provider can send a PA request electronically to

<https://www.covermymeds.com/main/prior-authorization-forms/>

Not all oncology drugs are listed below. All federally reimbursable

oncology (antineoplastic) agents are available through prior authorization.

Care1st Health Plan Arizona will cover the medication(s) if:

1. There is a medical reason that requires the specific medication(s)
2. Depending on the medication, other medications on the PDL have not worked

If the request is approved, Care1st Health Plan Arizona Plan notifies your prescriber by fax. If the clinical information provided does not meet the coverage criteria for the requested medication, Care1st Health Plan Arizona will:

- Review the request and notify you and your prescriber of our decision
- Let you know about alternative medications if available
- Provide information about what you can do to appeal our decision if you do not agree with it.

Medical Necessity Requests

If you require a medication to treat a condition that does not appear on the PDL, your

doctor can make a medical necessity (MN) request for the medication.

Emergency Supply Policy

In emergent situations, the pharmacy may dispense up to a 4 day supply of medication to any member awaiting PA determination. The purpose is to avoid interruption of current therapy or delay in the start of therapy. Network pharmacies are authorized to provide up to a 4-day supply of traditional (non-specialty) drugs. Have your Pharmacy call the Pharmacy Help Desk at **1-602-778-1831 option 5** for help filling a 4-day emergency supply.

Exclusions

The Care1st Health Plan Arizona Drug List does not include certain drugs. The following types of drugs are excluded from coverage. They are also not available for a 4 day emergency supply.

- Drugs that are considered experimental or investigational
- Drug Efficacy Study and Implementation (DESI) drugs
- Prosthetic appliances and devices
- Drugs prescribed for infertility
- Drugs prescribed for erectile or sexual dysfunction
- Drugs prescribed solely for cosmetic purposes or hair growth
